

Please don't give more media to Rupert Murdoch. His ultra conservative news coverage is not what this country needs. We need all of the diversity we can get. "In the public interest," equals greater diversity of media ownership, not less. I strongly oppose taking a vote that leads to more media consolidation. I am expecting the Commission to serve the public interest by not allowing cross-ownership. Please delay the vote expected to take place on June 2, 2003.
